Dimensions

Features

- The world's first variable speed electric screwdriver by free setting from 600(r.p.m.)-1000(r.p.m.) with LED speed display and constant torque, which is convenient for a diverse range of precision fastening.
- High-performance low-voltage brushless motor is used and produces no dust, low noise and durability. Maintenance is not necessary, meeting the environmental requirements.
- Ergonomic size, high temperature durable, weak vibration, good grip, new appearance, light weight, easy to operate for a long time without fatigue, improve efficiency.
- High precision of the torque, with step-less torque adjustment, simple operation, it can be generally used for electrical and electronic lightening products, home appliances, toys, computer accessories and other processing and assembling operations.
- Torque can be adjust as low as 0.1kgf.cm-1.0kgf.cm and 0.15kgf.cm-2.0kgf.cm two models, suitable for high-precision industries, such as mobile phones, watches, optical drivers, IT digital products, etc.

Technical parameters

MODEL	SD-A1000L	SD-A1200L
Input voltage	DC 30V	
Measuring Range	(kgf.cm)	0.1-1.0
	(lbf.in)	0.09-0.87
	(N.m)	0.01-0.1
Torque accuracy	±3%	
Torque adjustment	Stepless adjustment	
No load speed (r.p.m.±10%)	Variable five-stage speed type 600-700-800-900-1000	
Applicable power adapter	SD-30V15W3P	
Rated power (W)	15	
Diameter of screw	Machine screw	1.0-1.5
	Tapping screw	1.0-1.4
Weight (g)	182	
Applicable screw bit		

Accessories
